

Balaviknesh S- Technical Trainer/ Experiential Learning

Rathinam Technical Campus

Reporting to Gajendran Parthasarathi

D.O.J.: 09.03.2026

PROPOSED JOB ROLE – NEXT SEMESTER

- Successfully design and execute three **DIMLIGHT workshops** with a focus on industry-aligned curriculum design, measurable student engagement metrics, and bridging specific technical skill gaps for improved employability.
- Provide robust academic mentoring and career guidance for semester courses, implementing comprehensive academic performance tracking systems to foster a culture of competitive programming and excellence in technical events.
- Provide technical guidance and project management for students participating in **SIH 2026** and intercollege hackathons, emphasising successful deployment strategies and full-scale prototype implementation for technical innovation challenges.
- **Experiential Learning & Onboarding:** Strategically plan and execute **ARIVUPATTARI 2026** for incoming first-year students, delivering an expanded curriculum scope with hands-on learning outcomes focused on core electronics and fundamental technical concepts.
- **Professional Certification:** Upskill via the NPTEL platform by completing advanced certifications, actively integrating newly acquired specialised knowledge into daily teaching practices and academic delivery.
- **Continuous Technical Development:** Participate in Faculty Development Programs (FDPs) and industry workshops to apply emerging technical skills and pedagogical competencies directly within the classroom environment.
- Pursue M.E. CSE (Specialisation in AIML) to significantly enhance research capabilities and implement advanced teaching methodologies centred on cutting-edge technologies.
- Handle Digital Electronics subjects for the 2nd-year Mechatronics department, ensuring effective delivery of course material and fostering student engagement.
