

Gajendran Parthasarathi
Head – School of Design and Innovation
Rathinam Technical Campus
Reporting to Dr K Geetha – Principal
D.O.J.: 19.08.2024

JOB DESCRIPTION

As the Head of the School of Design and Innovation, I will be responsible for fostering innovation, experiential learning, entrepreneurship, research, and industry readiness among students. My key responsibilities include:

1. Experiential Learning & CAT and MAT Sessions

- Plan, coordinate, and deliver Experiential Learning courses in accordance with the institution's standard procedures and academic framework.
- Lead and facilitate CAT and MAT sessions to enhance students' creativity, problem-solving skills, and practical knowledge.

2. Student Innovation & Competitions

- Motivate and mentor students to actively participate in hackathons, technical competitions, innovation challenges, and multidisciplinary events conducted at regional, national, and international levels.
- Support students in developing innovative solutions and projects that address real-world challenges.

3. Moonlight Workshops

- Organize and conduct Moonlight Workshops for students across various disciplines to promote interdisciplinary learning, hands-on experience, and innovation-driven thinking.

4. R Fab-X Studio Activities

- Plan and execute workshops, training programs, innovation events, exhibitions, and outreach activities through R Fab-X Studio as per the approved annual calendar.
- Ensure optimal utilization of the studio's resources to support student learning and innovation.

5. Innovation, Entrepreneurship & Product Development

- Guide students in identifying innovative ideas and transforming them into viable projects and products.
- Mentor students in pitching their ideas through AIC-RISE and other incubation platforms.
- Facilitate the conversion of promising ideas into prototypes, startups, and market-ready products.

6. Career Development & Industry Readiness

- Mentor students to enhance their employability and secure placements in core industries.
- Bridge the gap between academia and industry through skill development initiatives, industry interactions, and project-based learning.

7. Arivupattarai Program Management

- Oversee the complete execution of the Arivupattarai program from planning to implementation.
- Manage the preparation, arrangement, and distribution of Maker's Kit Boxes for participating students.
- Coordinate and deliver Electrical and Electronics training modules as part of the Arivupattarai initiative.
- Ensure effective hands-on learning experiences and successful program outcomes.

8. First-Year Student Mentoring & Project Development

- Guide and mentor first-year students in conceptualizing, developing, and presenting innovative projects for the Yudhistra Project Expo.
- Encourage project-based learning and innovation among students from the beginning of their academic journey.
- Facilitate the selection and refinement of promising projects for higher-level competitions and exhibitions.

9. Research, Publications & Intellectual Property Development

- Mentor students in converting innovative projects into research publications.
- Guide teams in drafting, filing, and securing patents for novel technologies, products, and processes.
- Promote a culture of research, innovation, and intellectual property creation within the institution.

10. Leadership & Team Development

- Lead, mentor, and motivate faculty and staff members within the School of Design and Innovation.
- Establish performance goals, monitor progress, and support team members in achieving departmental and institutional objectives.

11. Institutional Growth & Strategic Initiatives

- Contribute to the institution's vision by promoting innovation, entrepreneurship, design thinking, experiential learning, research, and product development.
- Collaborate with internal and external stakeholders to create opportunities that enhance student learning outcomes and institutional reputation.

Through these initiatives, I will strive to create a vibrant ecosystem of innovation, experiential learning, entrepreneurship, research, and industry engagement, contributing significantly to the overall growth and success of the institution.
