

Name & Designation: Mr. RAM PRASATH S, AP/Experiential Learning (ECE)

Rathinam Technical Campus

Reporting to Mr. Gajendran P – Head School of innovation and Design

D.O.J.: 04.06.2025

Roles and Responsibilities

Academic and Teaching Responsibilities

- Continue handling **MAT and CAT classes** for core Electronics and allied courses with improved outcome-based teaching methodologies.
- Enhance student learning through:
 - Concept-based and application-oriented teaching
 - Problem-solving sessions
 - Industry-oriented practical examples

Continuous academic mentoring

Mentoring and Student Innovation Activities

- Mentored multiple teams for **Smart India Hackathon (SIH) 2025** and assisted one team as an official mentor (completed under no winner category for the problem statement).
- Mentored **20 student teams** for **Yudhisthira 2026**, with one mentored team achieving **First Prize**.
- Mentored **20 students teams** and make all teams submitted their ideas/innovations in **Yukthi Innovation 2026** portal.
- Acted as a **Reviewer and Evaluator** for **100+ student projects** during **Yudhisthira 2026**.
- Currently mentoring a student batch for the **ISRO Robotic Challenge 2025 (IRoC 2025)**, which has been **shortlisted for the next round**, with final round preparation currently in progress.
- Mentoring one batch of students for **Niral Thiruvizha 2026**.
- Continuously mentoring students to participate in prestigious national-level competitions and innovation programs such as:
 - IEEE SSCS Arduino Contest 2026
 - Shiksha AI 2026
 - Other State/National-Level Hackathon

Laboratory and Technical Development Responsibilities

- Serving as **In-charge of Drone Hub**, an initiative aimed at training students in the field of **Drone Technologies**. As part of this initiative, successfully obtained approval for the procurement of **Drones**.
- **Certified QNX Trainer** for handle/support Advanced Embedded System (**QNX RTOS**) course.

- Serving in the **AICTE IDEA Lab** and actively supporting:
 - IDEA Lab inauguration activities
 - Conducting training programs for students across disciplines
 - Hands-on technical mentoring and interdisciplinary innovation activities

Institutional and Administrative Support

- Supporting various **inspection and compliance activities** related to the **AICTE IDEA Lab** and departmental laboratories.
- Contributing to the effective functioning and technical development of departmental laboratory infrastructure.
- Acting as NSDC coordinator (RTC Campus) and making students to enroll in NASSCOM for Skill Qualification Packs certificates.

Student Mentoring and Competitive Preparation

- Continue mentoring students for:
 - Smart India Hackathon (SIH)
 - ISRO Drone Challenge
 - National-Level Hackathons
 - Arduino Contest
 - AI-based innovation challenges
- Strengthen student participation in interdisciplinary projects, competitions, and innovation-based activities to improve institutional achievements.

Skill Development and Technical Training

- Organize and conduct workshops and hands-on training sessions in:
 - Embedded Systems
 - Microcontrollers and IoT
 - Computer Vision and AI Applications
 - Drone -based Design
- Expand **Drone Hub activities** by initiating structured training in:
 - Drone Development
 - Mentoring Drone related contest

IDEA Lab and Institutional Contributions

- Continue contributing as **to AICTE IDEA Lab** by:
 - Conducting technical training programs
 - Supporting student innovation and prototyping
 - Assisting interdisciplinary project development
- Support laboratory enhancement, inspection activities, and infrastructure development initiatives across the department.

Professional Development

- Continue upskilling in advanced technologies such as:

- Real-Time Embedded Systems
 - QNX RTOS
 - Drone technologies
 - AI-driven Embedded Applications
- Contribute to academic excellence through student mentoring, technical activities, research, and innovation-driven initiatives.
- Expecting to complete my Ph.D program during 2026 – 2027.
