

CLEMENT.M [RTC 00901]

Assistant Director – IQAC

Job Description

Position Purpose

To lead, coordinate, monitor, and strengthen the institution's quality assurance systems through effective management of accreditation activities, academic audits, examination quality processes, institutional rankings, compliance monitoring, and continuous quality improvement initiatives while supervising the IQAC team and acting as the central point of coordination for quality-related activities.

Key Responsibilities

1. Leadership and Coordination of IQAC Operations

- Function as the Single Point of Contact (SPOC) for all IQAC-related activities and communications across the institution.
- Provide operational leadership to the IQAC team comprising the Quality Auditor, Coordinator, Assistant Coordinators, Associate Executive, and Personal Secretary.
- Allocate, monitor, review, and follow up on tasks assigned to IQAC team members.
- Coordinate activities between management, departments, faculty members, and support divisions to ensure timely completion of quality-related initiatives.

2. Accreditation and Compliance Management

- Lead institutional follow-up activities related to NBA, NAAC, AQAR, and other accreditation frameworks.
- Coordinate validation of accreditation data and supporting documents.
- Ensure institutional compliance with quality benchmarks, accreditation requirements, and regulatory expectations.

3. Academic Audit Administration

- Plan, monitor, and review academic quality audits across departments.
- Coordinate Course File Pre-Audits and Post-Audits.
- Monitor Question Bank Audits, CIA Question Paper Scrutiny, Answer Script Audits, Classroom and Laboratory Sit-In Audits and Benchmark File Audits.
- Review audit observations, obtain Action Taken Reports (ATR), and ensure closure of audit findings.

4. Examination Management and Assessment Quality Assurance

- Lead and administer the institution-wide Continuous Internal Assessment (CIA) examination process for all Undergraduate and Postgraduate programmes.
- Plan, schedule, coordinate, and monitor the conduct of CIA-I and CIA-II examinations across the institution each semester.
- Supervise all examination-related activities including question paper collection, scrutiny, hall planning, examination notifications, invigilation coordination, answer script management, and result processing.

- Validate CIA question papers for syllabus coverage, Bloom's Taxonomy alignment, cognitive level appropriateness, course outcome mapping, and adherence to institutional regulations.
- Ensure timely conduct of examinations in accordance with the academic calendar and examination policies.
- Monitor examination compliance, confidentiality, transparency, and documentation throughout the assessment cycle.
- Coordinate answer script audits, question paper audits, and examination quality reviews to ensure fairness and academic integrity.
- Coordinate with departments for examination preparedness, corrective actions, and resolution of examination-related issues.
- Maintain examination records, reports, and supporting documents required for audits, accreditation, and regulatory compliance.

5. Institutional Rankings and Surveys

- Coordinate data collection, validation, and submission activities for national and international rankings.
- Monitor ranking-related documentation and evidence management.
- Coordinate institutional participation in ranking and benchmarking exercises including QS, Times, India Today, and similar frameworks.

6. Quality Documentation and Data Validation

- Verify institutional quality records, reports, evidence files, and compliance documents.
- Validate event and activity documentation for KPI claims.
- Review official IQAC and examination communications before circulation.
- Maintain documentation standards for accreditation and quality assurance purposes.

7. Process Development and Continuous Quality Improvement

- Develop and refine institutional quality processes and quality assurance mechanisms.
- Prepare and revise Standard Operating Procedures (SOPs).
- Design quality monitoring systems, review mechanisms, and compliance tracking tools.
- Drive Continuous Quality Improvement (CQI) initiatives across academic and administrative functions.
- Promote process automation and quality enhancement initiatives within IQAC operations.

8. Reporting and Management Support

- Prepare Minutes of Meetings (MoM), review reports, presentations, dashboards, and management summaries.
- Present quality performance indicators and institutional quality status to management.
- Prepare periodic quality assurance reports and institutional review documents.

Daily Responsibilities

- Review progress of IQAC and examination-related activities.
- Coordinate with departments regarding NBA, NAAC, AQAR, audits, and rankings.
- Verify documents, reports, and evidence submitted by departments.
- Validate official communications issued through IQAC and Exam Cell.

- Review CIA question papers and examination compliance requirements.
- Follow up on pending audit observations, compliance gaps, and action items.
- Conduct review meetings with IQAC team members.
- Prepare reports, presentations, letters, circulars, and management updates.
- Track departmental submissions and quality performance indicators.
- Support management in institutional quality planning and decision-making.
- Provide inputs for the NBA/ AQAR documentation.
