

Job Description

ANJITHA N K - Teaching Assistant / Experiential Learning Team, Rathinam Technical Campus

Reporting to Mr K. Muthusamy -Head -Technical Competition and Hackathon

D.O.J: 03.08.2023

Performance Highlights (2025–26) & Targets (2026–27)

A. Key Contributions & Achievements (2025–26)

Academic Responsibilities

- Conducted CAT and MAT sessions in accordance with departmental requirements.
- Supported academic delivery through mentoring, assessment, and student guidance activities.

Student Mentoring & Innovation

- Mentored the SIH 2025 winning team **Trombipulor** under the Smart Vehicles domain.
- Mentored the **Inzora Hawks** team during the NIDAR Hackathon, Delhi, for a drone-based disaster management solution.
- Served as a mentor under **Yudhishtira'26**, guiding students in project development and implementation.
- Mentored 18 student teams during final project reviews on prototype development, presentation design, and project demonstration.

Training & Skill Development

- Conducted hands-on electronics and embedded systems training for more than eight Arivupattarai batches.
- Delivered training on sensors, Arduino programming, PCB design, fabrication, and embedded system fundamentals.
- Conducted a Two-Day Arduino Workshop for engineering students.
- Coordinated the Moonlight Workshop on Bare-Metal I/O Programming using Embedded C.

Events & Coordination

- Organised and coordinated **Electrothon Hackathon – RGF 2026**.
- Supported the execution of departmental technical events and experiential learning activities.

Evaluation & Academic Reviews

- Served as evaluator for Yudhishtira'26 Zeroth and First Reviews. Assessed project quality, technical feasibility, and implementation progress.

Professional Development

- Completed NPTEL **Introduction to IoT** with Silver Certification.
- Completed a Coursera certification on AR/VR/MR/XR Technologies and Applications.

Recognition & Awards

- Received the **Green Card Award** for excellence as an Arivupattarai Trainer.
- Received the **Yudhishtira'26 Mentor Award** for outstanding mentoring and student development.
- Earned **IIC Ambassador Certification** for contributions to innovation and entrepreneurship initiatives.

Key Responsibilities & Targets (2026–27)

Academic Excellence

- Will handle **Circuit Theory** under CAT and MAT frameworks. Will strengthen student learning through effective teaching, assessment, and academic support.

Student Innovation & Competition Readiness

- Will mentor teams for **Smart India Hackathon (SIH) 2026**.
- Will train and support **student teams** for national-level hackathons and technical competitions.

ARIVUPATTARI 2026

- Will plan and conduct **ARIVUPATTARI 2026** for first-year students. Will deliver structured experiential learning modules in electronics and embedded systems.

Technical Events & Knowledge Sharing

- Will conduct a minimum of **three Dimlight Sessions** on emerging technologies.
- Will organize workshops, hackathons, and technical skill-development programs.
- Will contribute to the successful execution of departmental and institutional technical events.

Research & Innovation

- Will contribute towards research and innovation activities through the publication of research papers and filing of patents.

Professional Development

- Will successfully complete at least one **NPTEL certification course** with a commendable score.
- Will participate in FDPs, workshops, and industry-oriented training programs to enhance technical competency.
- Have joined the Master of Engineering (M.E.) in Embedded Systems Engineering program at Hindusthan Institute of Technology (HICET) for the upcoming academic year, with the objective of enhancing expertise in embedded systems, IoT, and advanced research-oriented technologies.
